NEWS BULLETIN

INNATE IMMUNITY UPDATES

Welcome to the ISI Newsbulletin! Join us for exciting research, fellowship opportunities, and community updates. Whether you're searching for a postdoc position or looking to share your latest publication, this bulletin has you covered. Stay informed about upcoming conferences and webinars, and don't forget to submit your own content for the next issue! We look forward to your contributions and engagement in the ISI community. For more information, please contact us at [email].

Call for Papers: Advanced Physiological Measurement
May 2026 | Young Society Scholar Prize
Dear Colleagues, We are pleased to announce the launch of a special collection in Advanced Physiological Measurement, a journal dedicated to publishing high-quality research that advances the understanding of physiological processes through innovative measurement techniques and technologies. This collection aims to showcase cutting-edge research in areas such as wearable sensors, biomedical signal processing, and novel physiological monitoring methods. We invite researchers from all disciplines to contribute their latest findings and insights to this collection. Submissions should be original research articles, reviews, or methodological papers that address key challenges in physiological measurement and its applications in health, disease, and human performance. We encourage submissions that explore the integration of multiple physiological signals, the development of new measurement devices, and the application of machine learning and artificial intelligence to physiological data analysis. We look forward to receiving your contributions and fostering a vibrant community of researchers dedicated to advancing the field of physiological measurement. If you have any questions or would like to discuss your potential submission, please do not hesitate to contact us. [URL]

Call for Lecturers
Call for Lecturers | Passport Teams @ [illegible]
The [illegible] Committee is pleased to announce the launch of the Passport Teams @ [illegible] program, a new initiative designed to provide opportunities for [illegible] to share their research and engage with the broader [illegible] community. We are seeking passionate and knowledgeable [illegible] to present on a variety of [illegible] topics, including but not limited to [illegible]. The Passport Teams @ [illegible] program aims to [illegible]. We believe that [illegible]. We are looking for [illegible] who can [illegible]. If you are interested in [illegible], please [illegible]. We look forward to receiving your [illegible].

Four PhD Positions Opportunities Open Now for the Lab's Research Information and Immunology Group
The University of [illegible] Medical Immunology Section is recruiting [illegible] PhD students and postdoctoral researchers.
