

Pre-Course Program | 28.4.2021

08:00-08:50	REGISTRATION and COFFEE	
08:50-09:00	COURSE OPENING - WELCOME	
	1st SECTION: THE KNEE	
PART 1	INTRODUCTION	
09:00-09:10	Choosing the right patient for Arthroplasty	Prof. Halperin Nachum
09:10-09:20	Knee Kinematics	Prof. Debi Ronen
PART 2	THE SURGERY	
09:20-09:30	Osteotomies around the knee	Dr. Goldman Vladimir
09:30-09:40	Uni compartmental concept	Dr. Nimrod Snir
09:40-09:50	Mechanical concept	Prof. Kosashvili Yona
09:50-10:00	Kinematic Concept	Dr. Yadin Levy
10:00-10:10	Component Design (CR, PS, MP)	Dr. Avivi Eran
10:10-10:30	What do you do? Panel & open Discussion (Selection the kind of Knee Arthroplasty)	Dr. Benkovish Vadim
10:30-10:45	COFFEE BREAK	
PART 3	POST TKR COMPLICATION AND REVISION	
10:45-11:05	The Painful Knee - post TKR Panel & open Discussion Case presentation	Prof. Halperin Nachum Dr. Ilia Proso
11:05-11:20	Principle of Revision TKR	Dr. Bar Ziv Yaron
	2nd SECTION: THE HIP	
PART 1	THE SURGERY	
11:30-11:40	Basic concepts	Dr. Itay Perets
11:40-11:50	Preoperative planning	Dr. Ahmad Biadsi (Dr. Yaron Brin)
11:50-12:00	DDH	Dr. Rotem David
PART 2	CASE PRESENTATION & DISCUSSION	
12:00-12:20	Case Discussion Painful Hip with or without joint narrowing	Presenter: Dr. Omri Iubovski Moderator: Prof. Halperin Nachum
12:20-12:40	Revision THR concept	Prof. Drexler Michael
12:40-13:00	Case Discussion Peri-Prosthetic fracture	Presenter: Dr. Berkovich Yaron Moderator: Dr. Oren Ben Lulu
13:00-13:10	Meeting closure	Prof. Ronen Debi
	End of Pre-Course	

Wednesday | 28th April

13:00 - 13:50

Welcome and opening

13:50

Greetings and opening remarks

Dan Dabby

Haim Starker

14:00 Session 1: What do I do and why - THR, Surgical approach and techniques - tips and tricks from my OR

Moderator - Haim Starker

Vadim Benkovich - Old and/or new. Posterior Approach -

good old working horse v/s the new Modified Superior Approach

Dror Lakstein - Why do we keep using the direct lateral approach?

Yaron Bar Ziv - Free hand Direct Anterior Approach - no table, no fluro

Asad Darawsha - Anterior Minimal invasive surgery with the never dreaming assistant - the leg positioner

Panel Discussion with 2 case presentations for discussion

15:00 Session 2: What do I do and why - Hip Implants and Technologies

Moderator - Shai Shemesh

Nimrod Snir - Hip-Spine relationship - Practical view

Yadin Levy - When and Why should we consider using Cemented Stems

Raja Hakim - Anatomical Stems - What have we learned?

Eran Avivi - When and Why do I use collared stems

Panel Discussion with 2 case presentations for discussion

16:00

Coffee Break

16:30 Session 3: What do I do and why - difficult total hips and complications

Moderator - Yadin Levi

Yona Kosashvili - The infected joint - DAIR/One/Two/Single/Partial

Choosing the preferred method?

Michael Drexler - Periprosthetic Fractures

Dan Levin - The dysplastic hip - tips and tricks

Alex Greenberg - Instability - where are we in 2021?

Panel Discussion with 2 case presentations for discussion

17:00 Session 4: Fractures and THR When and why?

Moderator - Arie Kendel

Muhamad Khatib - Hemi or total for hip neck fractures - our algorithm for decision?

Erez Shir-on - Dual Mobility - Is it over shooting?

Yaron Brin - Anterior Approach to Sub-Capital Fractures When and why?

Panel Discussion with 1 case presentation for discussion

17:30

Coffee Break

18:00 Session 5: The patients behind the metals

Moderator - Ronen Debi

Arie Kendel - Finding the right patient for our metals or finding the one we should not touch?

Omri Iubovsky - Patient optimization preop

Yulia Godolove - Pain management around joint replacement surgery-the modern pathway to consider

Amir Rubin - Patient optimization post op - Rehabilitation, follow ups and prom's

Aviram Gold - Thrombophylaxis, should we all switch to ASA?

Panel Discussion with 1 case presentation for discussion

19:00 **Session 6: The annual meeting of the Israeli hip and knee Society**
Dan Dabby - Past, Present and looking to the Future
Open discussion

Thursday | 29th April

7:30 - 8:00 **Welcome and opening**

8:00 **Session 7: What do I do and why - TKR, Surgical approach and techniques - tips and tricks from my OR**
Moderator - Gabi Agar
Gurion Rivkin - Mechanical Alignment
Nabil Grayeb - Anatomical Alignment
Yaron Bar Ziv - Kinematic Alignment
Snir Heler - Extension Gap and complete TKR Balancing
Panel Discussion with 2 case presentations for discussion

9:00 **Session 8: Enabling Technologies in TKR**
Moderator - Yaron Berkovich
Gil Fichman - Navigation tips and tricks, When and why
Yaron Berkovich - Hand held robotics, tips and tricks, When and why
Claude Picard - Robotic gap balancing, tips and tricks, When and why
Gideon Burstein - Does CT essential for robotic knee operation - affirms
Itay Perets - Does CT essential for robotic knee operation - opposes
Panel Discussion with 2 case presentations for discussion

10:00 **Coffee Break**

10:30 **Session 9: The Partial knee arthroplasty**
Moderator - Vadim Benkovitch
Samuel Dekel - MRI Pre-planing, manual instrumented UKA - when and how
Vadim Benkovitch - UKA using robot tips and tricks, When and how
Panel Discussion with 1 case presentations for discussion

11:00 **Session 10: The painful TKA**
Moderator - Yona Kosashvili
Benjamin Bender - The stiff knee - what can be done
Snir Heller - The unexplained pain - what can be done
Amir Herman - The unstable knee - what can be done
Panel Discussion with 2 case presentations for discussion

11:30 **Session 11: The difficult primary knees and complications**
Moderator - Oren Ben Lulu
Nimrod Snir - DFR for supracondylar fractures
Yaron Bar Ziv - Extra articular deformities around the knee
Muhamad Khatib - Difficult primary TKR
hip neck fractures - our algorithm for decision?
Gil Fichman - Patello-Femoral complications
Panel Discussion with 2 case presentations for discussion

12:30 **Coffee Break**

13:00 **Session 12: First Israeli consensus voting meeting**
Moderator - Shai Shemesh

14:00 **Lunch**
