

FULL PAPER SUBMISSION – NETSCI-X 2017

[NetSci-X 2017](#) welcomes submissions to the Proceedings Track. Accepted submissions to the Proceedings Track will be published in the conference proceedings (Springer Nature) and presented at the conference. Only previously unpublished, original submissions will be accepted by the Proceedings Track. Both theoretical and applied papers are of interest. Specific topics of interest include (but are not limited to):

- Biological networks
- Brain and neuronal networks
- Control and controllability
- Deep learning
- Epidemics and spreading processes
- Graph theoretic methods
- Internet of things
- Mobility, infrastructure and transportation networks
- Network dynamics and synchronization
- Networks in finance and economics
- Network models and analysis
- Privacy in networks and cyber security
- Social and political networks

Instructions for Submissions

Submit your full papers electronically in PDF format. All papers should be submitted through the conference web site www.netscix2017.com. The website includes detailed information about the submission process.

Publication in the Proceedings Track

Original papers in the above-mentioned and other related areas will be considered for publication in the Proceedings Track. Each submitted paper will be fully refereed and undergo a single-blind peer-review process by at least two referees. Unlike abstracts submitted to the Abstracts Track, accepted papers submitted to the Proceedings Track will be published in the conference proceedings provided at least one author is registered to the conference. The proceedings will be published by Springer Nature. Note that Springer will require signing a copyright agreement, so that previously published research cannot be submitted to the Proceedings Track.

Submitted full papers should follow the Springer Nature format.

Papers length is limited to eight pages in this format.

Manuscript should use the SVMult LaTeX class or the T1-book Word template (Links below).
